## EMERGENCY ACTION PLAN

### Emergency Contact Procedures

The most important help you can provide to a victim who is seriously injured is to call for professional medical help. Make the call quickly, preferably from a cell phone near the injured person. If this is not possible, send someone else to make the call from a nearby phone. Be sure that you or another caller follow these steps:

#### 1. First dial 9-1-1

2. Give the dispatcher the necessary information. Answer any questions that he or she might ask. Most dispatchers will ask:  
3. **The exact location or address of the emergency?** Include the name of the city or town, nearby intersections, landmarks, etc. as well as the field name and location of the facility, if applicable.

**Our address is: W Cunningham Rd and S Taylor Rd, Othello, WA 99344**

4. The telephone number from which the call is being made.

5. The **Caller name?**

6. **What Happened?**

- i.e., a FOOTBALL-related accident, fire, fall, etc.?

7. **How many people are involved?**

8. **The condition of the injured person**

- i.e., unconscious, chest pain, or severe bleeding?

9. **What help is being given** (first aid, CPR, etc.)?

10. **Do not hang up until the dispatcher hangs up.**

11. Continue to care for the victim until professional help arrives.

12. Appoint someone to go to the street and look for the ambulance or fire engine and flag them down if necessary. This saves valuable time. **Remember, every minute counts.**
